

APP SCREEN REFERENCE

INTVL

A run-tracking app that turns running into a territory-conquest game. Every screen extracted from the walkthrough recording, captioned with its purpose and key UI elements — a build reference for Claude Code.

App Overview

The concept

INTVL is a GPS run-tracking app wrapped in a location-based strategy game. As users run, the ground they cover is converted into claimed **territory** ('Terra') painted on a live map in their chosen colour. Individuals and **clubs** compete to own the most real-world land, climbing leaderboards by region and worldwide. Progress is gated behind a **level / XP** system, and sponsored **competitions** offer real prizes.

Primary navigation (bottom tab bar)

Play	The territory map, clubs, leaderboards, game modes (Single Player / Private Lobby) and run details.
Me	Personal progression: level & XP, XP challenges, competitions, entry vault, and the running-plan builder.
Feed	Social: Explore community runs, Groups, and Following — gated until Level 2.
Start	Record a run: start → live GPS tracking → finish confirmation → rate & log/publish.

Design language

Dark, map-forward UI with a single high-energy **coral / red (#FF5A5F)** accent for primary actions and live states. Onboarding/auth uses a warm coral gradient; in-app surfaces are near-black with white type. Heavy use of segmented controls, ranked list rows with country flags, bottom sheets, and large numeric metric displays for run stats.

Screen index

01 Welcome / Sign In	16 Me — Competitions & Prizes
02 Google Account Chooser	17 Me — Entry Vault & Local Battles
03 World Map + Join a Club	18 Create My Running Plan

11 Private Lobby — King of the Area	26 Finish Confirmation
12 Run Detail — Splits & Elevation	27 Run Summary / Log Run
13 Free Run Detail — Pace Chart	28 Profile — Edit
14 Me — Home / Level & XP	29 Settings Menu
15 Me — XP Challenges	30 Referral Code

01 ONBOARDING

Welcome / Sign In

Entry screen on a warm coral gradient. Users log in with email + password, or via social sign-in (Google and Apple). A 'Sign up' link routes new users to registration.

KEY UI ELEMENTS

- Email + password fields (password has show/hide eye toggle)
- 'Forgot password?' inline link
- Primary dark 'Sign in' button
- 'Or sign in with' divider → Google + Apple buttons
- 'Don't have an account? Sign up' footer link

02 ONBOARDING

Google Account Chooser

Native Google OAuth sheet launched from the social sign-in option. The INTVL logo and 'to continue to INTVL' confirm the consent context before the account is linked.

KEY UI ELEMENTS

- List of available Google accounts with avatars
- 'Use another account' option
- Privacy Policy + Terms of Service links
- Standard OAuth web-view chrome (handled by the OS)

03

PLAY · CLUBS

World Map + Join a Club

The core 'Play' tab. A live map shows real-world territory owned by running clubs, overlaid with neighbourhood labels. A bottom sheet lets the user browse and join a club. Top bar switches lobby type (Private Lobby / Single Player) and shows the active club.

KEY UI ELEMENTS

- Top segmented control: Private Lobby · Single Player · Club selector
- Map with club-coloured territory regions + place labels
- 'PRO' badge, notifications bell, profile avatar, 'CLUB OF THE AREA' banner
- Floating map controls (recenter, layers)
- 'Join a Club' bottom sheet with search field
- Bottom nav: Play · Me · Feed · Start

04

PLAY · CLUBS

Join a Club — Browse

Expanded club directory ranked by member count. Each row shows the club's badge/logo, name, number of members and home country. Includes search, filter and sort, plus a 'Create a club' action and a paginated list.

KEY UI ELEMENTS

- Ranked list rows: rank # · badge/logo · club name · member count · country
- Search bar ('Search for a club...')
- 'Create a club' action + Filter + 'Sort by' controls
- Country flags/labels denote each club's home region
- Pagination control at the bottom of the list

05 PLAY · CLUBS

Join a Club — Confirm

Confirmation modal shown when switching/joining a club. Displays the club badge and name with explicit Cancel / Confirm change actions to prevent accidental switches.

KEY UI ELEMENTS

- Club badge artwork + club name (e.g. 'Indian Runners')
- Body copy: 'Confirm you want to join this club'
- 'Cancel' (secondary) and 'Confirm change' (primary) buttons

06 PLAY · CLUBS

My Club — Club Leaderboard

'My Club' panel with the user's club summary (current territory + total members) and a leaderboard of clubs. Toggle between India / Worldwide and Leaderboard / Club Leaderboard.

KEY UI ELEMENTS

- My Club header card: club name · current territory km² · total members
- Tabs: Leaderboard · Territories · History
- Sub-toggle: Leaderboard ↔ Club Leaderboard
- Region toggle: India 🇮🇳 ↔ Worldwide
- Ranked club rows with flags and territory km²

07 PLAY · CLUBS

My Club — Member Leaderboard

Individual member ranking inside the selected club, sorted by territory captured. Used to drive intra-club competition and recognise top contributors.

KEY UI ELEMENTS

- Ranked member rows: rank · avatar · username · territory km²
- Same My Club header + tab system as the club leaderboard
- Scrollable list (top 10+ members visible)

08 PLAY · CLUBS

My Club — Territories

Map-centric view of all land the club currently holds, with the club summary card docked to the bottom. Territories can be re-ordered by date captured or by area.

KEY UI ELEMENTS

- Full-bleed territory map with club-coloured regions
- Sort toggle: 'Sort by Date' ↔ 'Sort by Area'
- Docked My Club summary card
- Tab: Leaderboard · Territories · History

09

PLAY · CLUBS

My Club — History

Historical growth view: 'Club territory over time' rendered as an area/line chart so members can see momentum and trends in how much land the club has accumulated.

KEY UI ELEMENTS

- 'Club territory over time' heading
- Area chart of cumulative territory vs time
- My Club summary card + Leaderboard/Territories/History tabs

10

PLAY · MODES

Single-Player Territory Map

The gamified conquest map (Single Player mode) where every neighbourhood is shaded by who owns it — a 'KING OF THE AREA' theme. Selecting a run shows its captured area outlined in red.

KEY UI ELEMENTS

- Densely coloured per-area ownership overlay over the city map
- 'KING OF THE AREA' banner
- Bottom panel tabs: Leaderboard · Events · Territories · History
- Selected run card: user · date/location · Distance · Duration · Avg Pace · Terra area km²
- Highlighted (red) captured-territory polygon on map

11 PLAY · MODES

Private Lobby — King of the Area

Private-lobby variant of the conquest map for competing with a chosen group. Same ownership shading with a run detail card; supports creating or joining a private lobby.

KEY UI ELEMENTS

- 'Create/Join a Private Lobby' action
- 'KING OF THE AREA' banner + coloured ownership map
- Run detail card with Distance · Duration · Avg Pace · Terra area
- Lobby/mode selector in the top bar

12 ACTIVITY

Run Detail — Splits & Elevation

Detailed activity page for a logged run. Header shows runner, club, date and location, with headline metrics and a per-segment table of pace + elevation change, plus run summary stats.

KEY UI ELEMENTS

- Runner header: avatar · name · club · date · location · ■ menu + 'View club'
- Headline metrics: Distance · Duration · Avg Pace · Terra area km²
- Per-split table: pace · elevation gain/loss per segment
- Summary block: elevation gain, average speed
- 'View all' splits link

13 ACTIVITY

Free Run Detail — Pace Chart

Activity page for a 'Free Run' with an Average Pace chart visualising pace across the run. Same header + headline-metric pattern as a standard run detail.

KEY UI ELEMENTS

- 'Free Run' label under runner header
- Headline metrics: Distance · Duration · Avg Pace · Terra area km²
- 'Average Pace' line chart over time/distance
- 'View club' + ■ overflow menu

14 ME · PROGRESSION

Me — Home / Level & XP

Personal progression hub. Shows level + XP to next unlock, gated feature unlocks, XP challenges and competitions. Acts as the gamification spine that paces feature access.

KEY UI ELEMENTS

- Level bar: 'XP to next level' with current Level
- 'Next unlock: Level 2 — Community Feed' progress row
- XP Challenges section ('earn XP to level up')
- Competitions section ('Unlocks at level 7')
- Search field + profile avatar

15

ME · PROGRESSION

Me — XP Challenges

Grid of bite-size challenges that reward XP (e.g. add a profile picture, enable notifications, enter referral code, go for a run, add a live image).

Drives onboarding + retention.

KEY UI ELEMENTS

- Horizontally scrolling challenge cards
- Each card: icon · task title · XP reward badge (+10 XP, +3 XP, ...)
- Some challenges locked until a given level
- Feeds the level/XP system on the Me home

16

ME · PROGRESSION

Me — Competitions & Prizes

Sponsored competition module (e.g. 'Terra Comp' with cash + hardware prizes like Apple Watch, Garmin, WHOOP, Suunto, Fitbit). Includes a 'View competition' entry point.

KEY UI ELEMENTS

- Competition card: title · prize value (e.g. '\$1,238 AUD in Prizes') · status
- Sponsor/brand image strip (watches, apparel)
- Descriptive blurb of the current competition
- 'View competition' primary button

17

ME · PROGRESSION

Me — Entry Vault & Local Battles

Lower section of the Me tab. The Entry Vault tracks competition entries by tier/milestone; Local battles surfaces head-to-head challenges. Both gate behind level thresholds.

KEY UI ELEMENTS

- Entry Vault ('Unlocks at level 8'): entries in vault / active / used counters
- Vault milestone progress bar (Level 0 → 12) + 'Open vault'
- Local battles ('Unlocks at level 9') with empty state
- Continues the competition flow above

18

ME · PROGRESSION

Create My Running Plan

Empty-state onboarding for a personalised training plan. Prompts the user through onboarding questions to generate a tailored running program.

KEY UI ELEMENTS

- Heading: 'You don't have a running plan yet...'
- Explainer copy about onboarding questions
- Primary 'Create my running plan' button
- Below: the standard Me level/XP modules

19 FEED

Feed — Explore

Community discovery feed of public runs. Each post has photos, a caption, run stats and social actions. A 'Country territory leaderboards' entry sits at the top.

KEY UI ELEMENTS

- 'Country territory leaderboards' link with chevron
- Post: avatar · name · time · location · caption + photo carousel
- Run stats row: Distance · Duration · Avg Pace
- Like (♥ count) + comment actions
- Feed tabs: Explore · Groups · Following

20 FEED

Feed — Groups

Join groups via a 6-character code or pick from suggested groups. Groups are the social container for following crews and seeing their activity.

KEY UI ELEMENTS

- 'Enter a group code or join an existing group' prompt
- 6-box code entry field
- 'SUGGESTED GROUPS' list with 'JOIN GROUP' actions
- 'View all groups' button

21 FEED

Feed — Following & Visibility

The Following tab plus profile-visibility controls. Users choose Everyone vs Followers-only visibility, manage following/followers counts, add friends and post thoughts/questions.

KEY UI ELEMENTS

- 'Set your profile visibility': Everyone vs Followers (radio toggles)
- Following / Followers counters
- 'Add friends' button + composer ('Share your thoughts...')
- Followed users' run posts appear below

22 FEED

Feed — Locked State

Gating screen shown before the Feed is unlocked. Reinforces the progression loop by telling users to reach Level 2 and how to level up, routing them to the Me section.

KEY UI ELEMENTS

- Lock icon + 'Reach level 2 to unlock the Feed'
- Level progress chip
- 'How to level up!' numbered steps
- 'Go to the Me section' primary button

23

RECORD A RUN

Start Run

Pre-run ready screen (Start tab). Large zeroed metrics with a clear 'Start Run' CTA and a 'View other options' link for choosing run/lobby type before recording.

KEY UI ELEMENTS

- Big metrics: Distance (km) · Duration · Average pace · Current pace (all zeroed)
- Primary 'Start Run' button
- 'View other options' link
- Map preview underneath (when expanded)

24

RECORD A RUN

Pre-run / Motion Permission

Run map with the OS Motion & Fitness permission prompt (required for activity tracking). Bottom bar shows live capture status and a Pause control once running.

KEY UI ELEMENTS

- Live map with GPS user location pin
- iOS 'INTVL would like to access Motion & Fitness' prompt (Don't Allow / Allow)
- Map controls: back, recenter, layers
- Status strip: area m² · 'Capture in Progress' · GPS signal

25

RECORD A RUN

Active Run Tracking

Live recording state. The map traces the route while the bottom panel shows real-time Distance, Duration and Average pace, with Resume and 'Hold to Finish' controls.

KEY UI ELEMENTS

- Live route + location pin on map
- 'Capture in Progress' + captured area (m²) + GPS strength
- Live metrics: Distance · Duration · Average pace
- 'Resume Run' and 'Hold to Finish' (press-and-hold) buttons

26

RECORD A RUN

Finish Confirmation

Coral confirmation modal that guards against ending a run early. Confirms completion with 'Finish my run' or lets the user 'Discard run'.

KEY UI ELEMENTS

- 'I'M FINISHED RUNNING' modal with close (X)
- Encouraging copy + confirm prompt
- 'Finish my run' primary button
- 'Discard run' link

27 RECORD A RUN

Run Summary / Log Run

Post-run review and publish screen. Shows headline metrics, an Easy↔Difficult effort slider, a description field, media attachments and visibility toggles, then logs the run.

KEY UI ELEMENTS

- Editable title ('Free Run') + Distance · Duration · Avg Pace
- 'Rate your run' Easy↔Difficult slider
- 'Describe your run' text field
- 'Add Photos' + 'Add INTVL live' attachment buttons
- Toggles: 'Show in community', 'Add run to Terra'
- 'Log run' primary button

28 PROFILE · SETTINGS

Profile — Edit

Account profile editor. Edit identity fields plus two game-cosmetic settings: 'Terra colour' (the colour your captured territory paints on the map) and 'Current skin'.

KEY UI ELEMENTS

- Avatar with edit pencil
- Fields: First/Last name · Username · Date of Birth · Gender
- 'Terra colour' swatch + 'Change Colour'
- 'Current skin' (No skin) + 'Change skin'
- 'Done' to save

29 PROFILE · SETTINGS

Settings Menu

Account + app settings sheet (opened from the profile). Bundles referrals, profile editing, app settings, privacy, purchases, integrations, help and account actions.

KEY UI ELEMENTS

- Rows: Enter Referral Code · Edit profile · App settings · Privacy · Plans & purchases
- Integrations · FAQs · Support · App change log
- 'Sign out' + 'Restore purchases' buttons
- 'Delete Account' destructive link

30 PROFILE · SETTINGS

Referral Code

Referral entry screen to unlock benefits/rewards. Validates a 4–12 character uppercase alphanumeric code. Pairs with the 'refer a friend' XP reward elsewhere in the app.

KEY UI ELEMENTS

- Heading + explainer ('unlock exclusive benefits and rewards')
- 'ENTER REFERRAL CODE' input (4–12 chars, uppercase letters + numbers)
- 'Unlock Rewards' primary button
